Dear Ms Frew,

Thank you.

We finally received a letter and some information from Dundee City Council yesterday. We are very unhappy that the Council has withheld information prior to June 2009 as although we did apply for FOI back then, we never received it. We want to have **all** of the information that the Council holds on Eighteen And Under and feel we have a right to this information.

I am completely dissatisfied with the Council's response to our request and wish to submit a new application to the Commissioner to consider the Council's withholding of information under Section 30, including all information they hold prior to June 2009. We cannot understand how any information the Council holds about our small agency could possibly have anything to do with prejudicing any public affairs.

In summary, I am withdrawing my technical application and have decided to submit a new substantive application to the Commissioner to consider the withholding of all information held by the Council and also the Council's failure to respond to the FOI request in time.

Please advise me how to proceed and let me know if I have not been clear enough.

Regards
